

Thank you for contacting Revenant Quest Paranormal Society. Before we begin this process, there are a few guidelines we would like you to review in regards to us coming to your home/business to conduct an investigation. Our guidelines are outlined below:

1. We ask for a donation with a minimum of \$25 up to any amount you feel led to give. Half of this donation will go to a charity of our choosing, the other half goes back into our organization to cover the cost of batteries, gas, equipment, etc. We donate to different charities each quarter. The reason behind asking for a donation is when people have to put money towards something, he/she/they tend to value it more. What we promise in return, is a professional investigation and, upon the investigation conclusion, any and all reports and evidence will be sent to you electronically within two weeks. This is a one-time donation regardless of how many times we come to your home/business. Donation must be sent to our PayPal prior to us coming out initially. We are here to genuinely help you and not to further our own personal curiosities into the paranormal. We already believe.
2. You must be **completely** honest with us. The questions we ask are a very important part of helping us determine what may be happening in your home/business. They also may serve to show us the direction we need to take in regards to clearing the property. We are not here to judge you and your answers will be kept confidential.
3. We ask that you keep a detailed journal of the activity. This should include times, activity, people/animals involved, the places the activity occurs, any happenings leading up to the activity and the weather. This will help in discerning patterns which could lead to the specific type of activity happening.
4. We have several gifted psychic/mediums as consultants along with various other groups and religious affiliates. We may use them to consult on your case. If this is something we choose to do, there will be no cost to you. Should you wish to use them, there is a cost for their services.
5. If a cleansing/clearing is needed, we ask that you purchase the supplies from us that are used in the cleansing/clearing. Typical supplies are salt and sage. We will sell them to you at the same cost we pay for them. We also have other products we sell for protection or cleansing/clearing.
6. If at all possible, please limit the number of people in the home/business while we are investigating. Too many people cause contamination and will result in us most likely having to dismiss a lot of activity. We all love animals, however, if they are loud and will be disruptive, we ask that you please remove them from the home/business, if possible.
7. If children are involved, we would like to speak to them prior to investigating. While we are conducting the investigation, we ask that they not be present due to potential dangers that may arise while we are there.
8. Things of this nature are typically never one and done. It may take several investigations of a place before any contact is made. Likewise, it may take several attempts at cleansing/clearing an area.

There are never any guarantees in this line of work. We can promise to do our best to help you with the activity you are experiencing. This is joint effort between us and you. The outcome is based on your actions as much as ours.

Respectfully,

Revenant Quest Paranormal Society
